INDUSTRY EXPERIENCE

Full Stack Developer Intern : CDAC Govt. of India

📅 June 2023 - July 2023

- Developed and modified an electronic waste awareness website along with ecommerce like feature, where users can seamlessly sell their Electronic waste to nearby vendors.
- Working with tools like Figma to build the UI of the website, React for frontend, Node.js and Express.js as backend and MongoDB as a database.

PROJECTS

F2F 🔗

- It's a platform where farmers can definitely get investment by sharing their knowledge and experience. Here, we are inviting all the investors across the globe to invest in this evergrowing industry and make this industry bigger than ever.
- Tech Stack: React, Node.js, Express.js, MongoDB

Scraponics 🔗

- The E-Waste Scraponics Project functions as a unified platform, connecting individuals, organizations and vendors. Through the Scraponics platform, stakeholders can engage in economic transactions, including buying, selling and donating their scrap items.
- tech stack : React, Node.js, Express.js, MongoDB, Rapid API

job-app 🔗

- A cross-platform job app for both Android and iOS devices, ensuring a seamless user experience. Utilize the capabilities of Rapid API to access a vast array of job data, including job listings, company information, and other essential details, and present it to users in a structured and easy-to-navigate format
- Tech Stack : React Native, Rapid API

OPEN SOURCE WORK

- GSSOC(girlscript summer of code) Contributor 2023

SCHOLASTIC WORK

- participate in more than 5 hackathons

EDUCATION

B.Tech in Computer Science & Engineering

NIT Silchar

📅 November 2021 - Present CGPA : 7.05 / 10.0

Gyan Vigyan Academy (Class XII State Board)

📅 2018 - 2020

CGPA : 79%

Jatiya Vidyalaya, Chabua (Class X State Board)

📅 2016 - 2018

CGPA : 92.5%

SKILLS

- | | |
|----------------|----------------|
| • React | • Javascript |
| • React Native | • Typescript |
| • Next.js | • CSS |
| • Node.js | • HTML |
| • Express.js | • C++ |
| • MongoDB | • git & github |

COURSE WORK

- Data Structure & Algorithm
- Object Oriented Programming
- Computer Network
- Database Management System
- Operating System
